

APPENDIX E ATTACHMENT

**SUMMARY OF POINT-INTERCEPT COVER BY PIN FRAME – VEGETATION STUDY
AREA
STARK COUNTY, NORTH DAKOTA, 2006-2007**

| Ecological Group and Site | Page |
|--------------------------------------------------------------|-----------------|
| GROUP 1 - HIGH WATER TABLE | |
| Saline Lowland-Wet Land- Subirrigated (SL-WL-Sb) | E Attachment-1 |
| Loamy Overflow-Subirrigated-Wet Land (LyOv-Sb-WL) | E Attachment-6 |
| Wet Land-Wet Meadow (WL-WM) | E Attachment-9 |
| WOODLAND | |
| Riparian Woodland (RW) | E Attachment-14 |
| Deciduous Tree Woodland (DTW) | E Attachment-29 |
| GROUP 2 - SHALLOW AND VERY SHALLOW | |
| Shallow Clayey (SwCy) | E Attachment-30 |
| Shallow Loamy (SwLy) | E Attachment-31 |
| Shallow Sandy (SwSy) | E Attachment-39 |
| GROUP 3 – (CP) | |
| Claypan (Cp) | E Attachment-40 |
| Thin Claypan (TCp) | E Attachment-41 |
| GROUP 4 – SANDY | |
| Sandy (Sy) | E Attachment-50 |
| GROUP 5 – CLAYEY | |
| Clayey (Cy) | E Attachment-53 |
| GROUP 6 – LOAMY | |
| Loamy (Ly) | E Attachment-57 |
| Loamy Overflow (LyOv) | E Attachment-58 |
| Loamy Terrace (LyT) | E Attachment-60 |
| Loamy Terrace (occasionally Clayey Terrace) (LyT (occ. CyT)) | E Attachment-71 |
| TAME PASTURE | |
| Tame Pasture (TP) | E Attachment-73 |

Footnotes for the Appendix E Attachment:

“Hits” are numbered as 1=first (highest) point of vegetation canopy or standing litter intercepted (if any) progressively down to B=Basal point intercept. Basal intercepts will always total 50 hits at each sample site, as each site was inventoried with five 10-point pin frames.

These data are summarized by ecological site/vegetation type in Appendix E.
